WARRIOR TRANSITION UNIT

Incoming Staff Member  
Warrior Transition Unit  
Fort Sill, Oklahoma 73503

Dear Warrior Staff,

Welcome to the Fort Sill, Warrior Transition Unit (WTU). There is no greater honor than being given the responsibility to care for Soldiers and their Families as you have been called to do. We exist to support the Warriors of this Command.

The mission of the WTU to provide Medical Management and Command and Control (C2) for Soldiers who have suffered injury or illness while serving our Nation. We ensure Soldiers receive the appropriate medical care and administrative support in order to return to the fighting force or to transition to the community as honored veterans, with dignity and respect.

The process of recovery is sometimes difficult and confusing. As cadre we ensure that Soldiers continue to reach their goal to heal and transition. We must set the example making sure we are maintaining good order and discipline within the unit. We are expected to sustain continuous channels of communication between Soldiers and staff.

As the Commander of the Warrior Transition Unit I thank you for your commitment to serve the healing Warriors of this great nation.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark K. Hoffpaui".

MARK K. HOFFPAUIR
